

Document Name	Role / Use Case in RAG Model
FSS (Ayurveda Aahara) Regulations, 2022	The Core Framework: Defines what legally qualifies as Ayurveda Aahara, sets product categories (A, B1, B2), details permitted additives, contaminant limits, and specifies the official Ayurveda Aahara logo requirements.
Order dated 25-07-2025 (Ayurveda Aahara)	The Category A Gateway: Acts as the official directive permitting the manufacture of classical Category A foods without prior approval, serving as the bridge to the Compendiums.
Ayurveda Aahara Compendium (Part 1)	Formulation Database: Provides the exact approved traditional recipes (from classical texts) with ingredients, ratios, preparation methods, and health indications. Used to verify if a product matches classical standards.
2ND ORDER CONTD... (Compendium Part 2)	Formulation Database Extension: Continues the recipe database for additional classical formats (e.g., drinks, gruels, baked goods), essential for cross-referencing ingredients and allowable therapeutic claims.
FSS (Advertising & Claims) Regulations, 2018	Marketing Compliance: Dictates what health, nutritional, or disease-risk reduction claims can be legally printed on the packaging or used in marketing without misleading consumers.
FSS (Packaging) Regulations, 2018	Physical Safety: Specifies the food-grade materials, migration limits, and approved plastics/metals that must be used to physically package the Ayurveda Aahara products.
FSS (Food Products Standards & Food Additives) Regulations, 2011	Ingredient Baselines: Provides the baseline safety, quality, and purity parameters for common food ingredients (e.g., oils, salts, sugars) that might be used alongside Ayurvedic botanicals.
FSS (Labelling and Display) Regulations, 2020	Label Design Rules: Enforces mandatory front-of-pack and back-of-pack declarations, including Veg/Non-Veg logos, nutritional tables, expiry dates, allergen warnings, and manufacturer details.
FSS (Licensing & Registration of Food Businesses) Regulations, 2011	Facility Compliance (Newly Added): Contains Schedule 4, which your model will use to answer queries about the mandatory Good Manufacturing Practices (GMP) and hygiene standards required at the physical manufacturing plant.
FSS (Approval for Non-Specified Food & Ingredients) Regulations, 2017	Novelty Approvals (Newly Added): Provides the exact step-by-step application process and safety dossier requirements for companies trying to launch new, modified, or medically specific (Category B) Ayurveda Aahara products.
